

TRANSPORT; CONNECTING PROJECTS (Tourism, Agriculture, Mining)

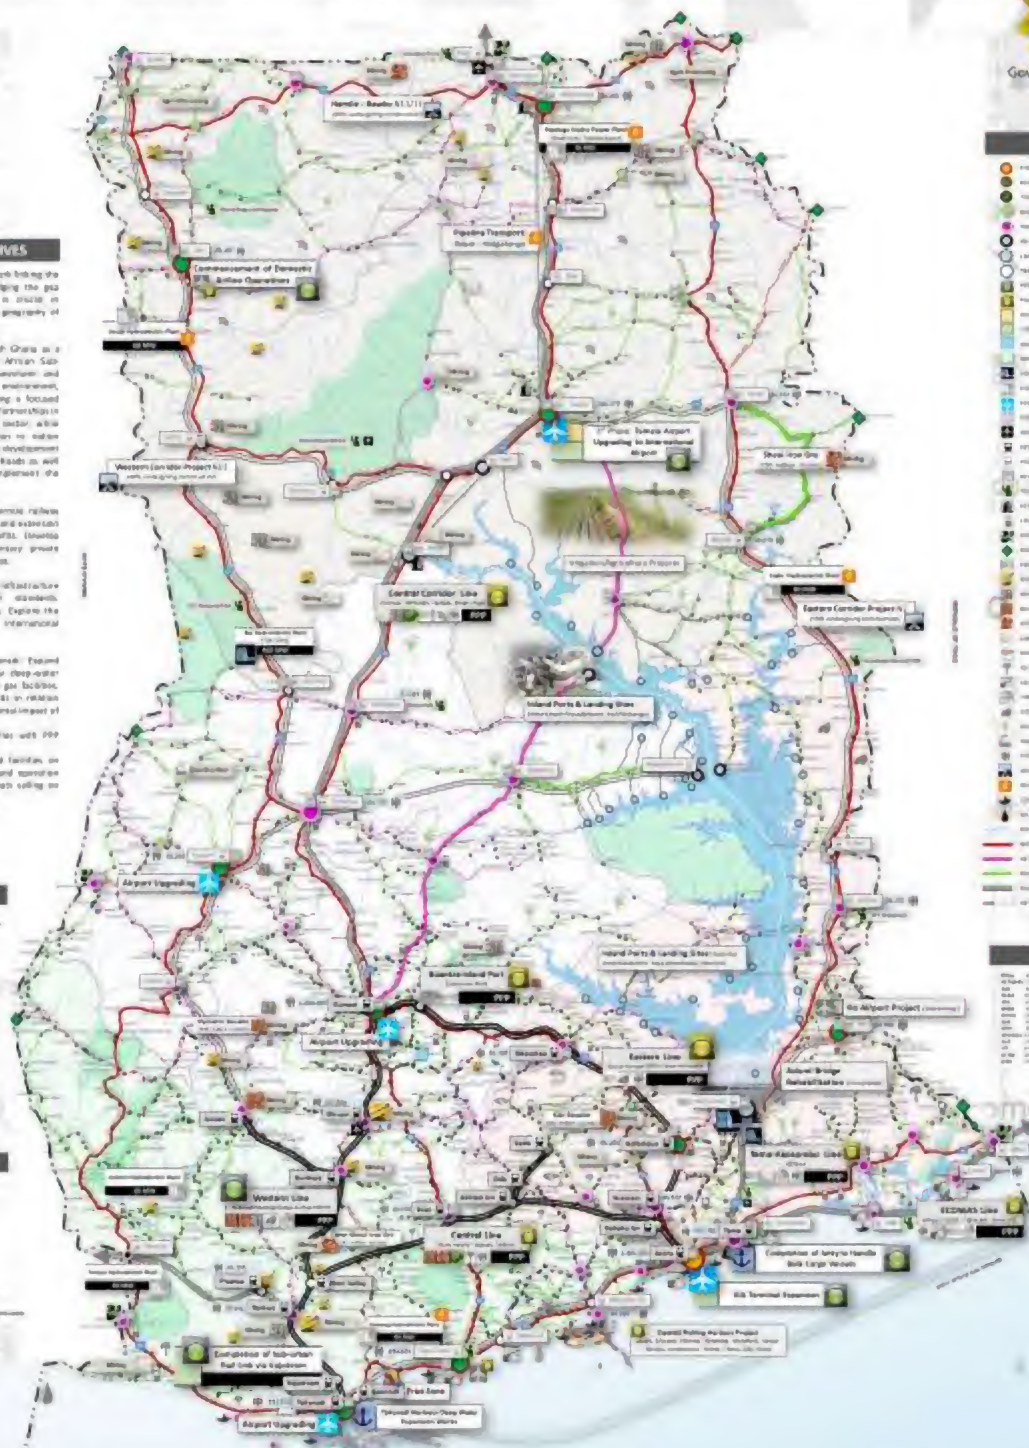

A multi-modal transportation network linking the rural and urban centers, and bringing the gap between the north and south, is critical in linking the rural and consumer geography of the nation towards globalization.

The other objective is to establish Ghana as a transportation hub for the West African Sahel, enabling a sustainable employment and performance based management environment, free market and roads. Undertaking a focused investment drive for Public Private Partnerships in all equipment of the transport sector, while ensuring local content participation in value building. Government continues the development of West, East and Central corridor roads as well as strategic power plants to complement the Transport Network. www.ghanatransport.gov.gh

Red Transport carries all passengers right up until 10:15 (or earlier if needed, and earlier than if the car has an accident). After 10:15, the car goes to the airport and the passengers are taken to the airport by the car.

As Vicepresident Logistics and external relations and facilities in international dimension, implement the corporate policy. Explore the feasibility of establishing other international airports in Ghana (Ghana).

Maritime and Island Bids: Teknor's proposed infrastructure including new deep-water berths, new container and oil and gas facilities, dredging and related new standards in relation with security, safety, and environmental impact of offshore activities [ongoing].
Some develop with rental facilities with PPP arrangements.
